

List of Agricultural, Statistical and other Surveys within the British Isles and elsewhere in the World.

The Society's Library holds a complete run of the revised and of many of the original Surveys of Counties in the British Isles commissioned by the "Old" Board of Agriculture during the late 18th and early 19th centuries. It also has a number of early survey works by authors such as Sir John Sinclair and Arthur Young.

In addition, from its formation in 1838, the Society has run competitions for prize essays and reports, and has commissioned articles for the Journal, many of which are related to the state of agriculture in different parts of the British Isles and elsewhere throughout the world. The Society also commissioned a number of County reports that were published between 1954 and 1969.

Whereas the general policy in the selection of entries to this list has been based on "Report on the Farming of etc.", reports covering major aspects of the industry in an area eg. "Fruit Growing in Kent", "Dairy Farming in the Netherlands" etc. are also included but where the reports are more specific eg. "Butter Making in Somerset", they are not.

In order to produce as comprehensive a list as possible, all such references are included.

For convenience they are listed in alphabetical order – e.g. Aberdeenshire, Antrim, Austria, Berkshire, Cardiganshire, England, Europe, Great Britain, World etc. Their location in the Library is explained below.

Key to location within the Library:

J = RASE Journal Volume Number.

B = Board of Agriculture publication.

GP = Gilbey Pamphlets, P. No in final column = pamphlet number in volume.

H = Transactions of the Highland and Agricultural Society of Scotland.

LRR = Library Reading Room.

LBS = Library Book Store.

LSR = Library Strong Room.

R 1.4 = RASE Current Pamphlets.

QJA = Quarterly Journal for Agriculture.
